EDUCATION

UNIVERSITY OF BUEA Computer Engineering

SKILLS

- HTML
- CSS
- JavaScript
- React.js
- Tailwind CSS
- Responsive Web Design
- Basic Python
- Git & GitHub
- Problem Solving

TECHNICAL INTERESTS

- Software Development
- Web Development
- Mobile Applications
- Computer Engineering
- Learning New Technologies

PROFILE SUMMARY

Motivated Computer Engineering student with a growing foundation in software development and modern web technologies. Skilled in HTML, CSS, JavaScript, React.js, Tailwind CSS and responsive web design, with hands-on experience building academic and personal projects. Eager to apply technical knowledge in an internship or entry-level environment, learn from experienced developers, and contribute to practical software projects.

PROJECT EXPERIENCE

Trade Track — Sales Management App Concept

- Designed a concept for a simple mobile app that helps informal traders record sales, track stock and manage customer credit.
- Planned features for offline use, profit calculation, best-selling products and financial reporting.

Responsive Web Projects

- Built responsive web pages using HTML and CSS.
- Practiced navigation, layouts, forms, styling, gradients and responsive design techniques.

Web Development Practice

- Practiced JavaScript fundamentals and interactive web-page development.
- Built and improved personal projects using modern web technologies.

ACADEMIC & PRACTICAL EXPERIENCE

Computer Engineering Student

- Participated in academic assignments and software-related group projects.
- Applied programming and web-development concepts to practical tasks.
- Collaborated with classmates to plan and complete project work.

CAREER OBJECTIVE

To obtain an internship or entry-level opportunity where I can apply my computer engineering and software development skills, gain practical industry experience, contribute to real-world projects, and continue developing as a software professional.
